

AI Install Job Aid

Finding & Installing Google Gemini and Gemini Notebook

Lifelong Learners GTX | Georgetown, Texas | October 14, 2026

Overview

This job aid guides you through finding and installing Google Gemini and Gemini Notebook (formerly NotebookLM) on your Android or iOS device. Follow the section that matches your device type.

BEFORE YOU BEGIN Ensure your device is connected to Wi-Fi or cellular data and that you are signed in to your Google Account (Android) or Apple ID (iOS) before starting installation.

Device Compatibility & System Requirements

Verify your device meets the minimum requirements before downloading either app.

Android Requirements

Check your Android version at Settings > About phone > Android version.

Table 1. Android App Requirements

App	Developer	Minimum Requirement	Key Capabilities
Google Gemini	Google LLC	Android 10+ (2 GB RAM or more recommended)	Replaces Google Assistant; Gemini Live conversational voice, screen context and multimodal camera analysis, Google Workspace integrations
Gemini Notebook	Google LLC	Android 10+ (or modern mobile web app)	Document and notes grounding, audio recording, interactive source analysis, generated Audio Overviews

iOS Requirements

Check your device version at Settings > General > About > iOS Version.

Table 2. iOS App Requirements

App	Developer	Minimum OS Requirement	Key Capabilities
Google Gemini	Google LLC	iOS / iPadOS 17.4+	Gemini Live voice interaction, multimodal camera and document uploads, Google Workspace extensions

App	Developer	Minimum OS Requirement	Key Capabilities
Gemini Notebook	Google LLC	iOS / iPadOS 17.0+	Source-grounded AI research workspace, audio recording, PDF and document analysis, Audio Overviews

Installation on Android (Google Play Store)

Follow these steps to install both apps from the Google Play Store.

Step 1 — Open Google Play Store

Tap the Google Play Store icon on your home screen or in your app drawer. Ensure you are signed in with your primary Google Account and that your internet connection is active.

Step 2 — Search for Google Gemini

1. Tap the search bar at the top of the Google Play interface.
2. Type Google Gemini and tap the search magnifying glass on your keyboard.
3. Look for the listing named Google Gemini published by Google LLC, displaying the four-point sparkle icon.

Step 3 — Install Google Gemini

NOTE: Installing Google Gemini requires accepting assistant permissions during setup.

1. Tap the green Install button.
2. Wait for the download and installation to be completed.
3. Verification: The button text changes from "Install" to Open.

Step 4 — Search and Install Gemini Notebook

1. Return to the Play Store search bar, enter Gemini Notebook (or NotebookLM), and tap Search.
2. Select the official Gemini Notebook app from Google LLC.
3. Tap Install and allow the package to download.
4. Verification: The app appears in your app drawer, and the Play Store displays Open.

Step 5 — Launch and Configure

1. Open Google Gemini.
2. Follow the on-screen prompts to connect your Google Account.
3. When prompted, you may choose to make Gemini your default digital assistant, replacing the legacy Google Assistant.
4. Launch Gemini Notebook to sync your saved research sources and Audio Overviews.

Installation on iOS (Apple App Store)

Follow these steps to install both apps from the Apple App Store.

Step 1 — Open the App Store

Locate and tap the blue App Store icon on your home screen or in your App Library. Ensure your device is connected to Wi-Fi or cellular data.

Step 2 — Navigate to Search

Tap the Search tab (magnifying glass icon) located in the lower-right corner of the screen.

Step 3 — Search and Install Google Gemini

NOTE Google Gemini requires iOS 17.4 or later.

1. Tap the top search bar, type Google Gemini, and press Search.
2. Confirm the developer listing states Google LLC with the official four-point star icon.
3. Tap the Get button (or cloud download icon).
4. Authenticate using Face ID, Touch ID, or your Apple ID passcode to begin downloading.

Step 4 — Search and Install Gemini Notebook

NOTE Gemini Notebook requires iOS 17.0 or later.

1. Tap the search bar again, type Gemini Notebook (or NotebookLM), and tap Search.
2. Locate the listing titled Gemini Notebook published by Google LLC.
3. Tap Get, authenticate the download, and wait for the progress ring to complete.

Launch & Sign In

Once installation is complete on either platform, follow these steps to get started.

1. Tap Open from the App Store or Play Store page, or find the apps on your home screen or app drawer.
2. Sign in using your Google Account to sync notebooks, history, and workspace tools.
3. For Google Gemini, follow any on-screen setup prompts to configure assistant preferences.
4. For Gemini Notebook, your previously saved research sources and Audio Overviews will sync automatically upon sign-in.

YOU'RE ALL SET Both apps are now installed and ready to use. Open Google Gemini for AI-powered assistance and Gemini Notebook for source-grounded research and Audio Overviews.
